Desk and Wall Calendars

Calendars do many things for your business:

- Attractive and functional, they offer you the best value for your money
- Appointment and desk calendars are a great alternative to greeting cards, keeping your message visible all year long.

Navitor offers a wide variety of calendar themes, making it easy to find the perfect one for each customer.

Themes Include: Religious, historical, wildlife, scenic, garden, food, cars, trivia, art, animals, humor

Ordering Instructions

Camera-Ready Art

1. Include clean, sharp, flat, black and white art produced on photographic paper without screens or shading.
2. Multi-colored designs must be color separated and include registration marks.
3. Do not send faxed art or photocopies. Laser copies must be a minimum of 600 dpi.

We Accept Files Created in the Following Applications

Acrobat® PDF (<i>Preferred Method</i>)	QuarkXPress®	Adobe® InDesign®
Adobe® Illustrator®	Adobe® Photoshop®	CorelDRAW® - PC only

Creating Your Files

1. Vector art with fonts created to outlines is preferred.
2. Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)
3. All supporting graphic files used within your layout must be sent along with the layout file, placed at 100%.
4. Submit black and white bitmap images at 600 dpi; CMYK and grayscale images at 300 dpi, sized at 100%.
5. Anti-aliased bitmap files are not acceptable.
7. Images taken from Web sites are not acceptable.
8. We support “.sit”, “.sea”, and “.zip” compressed files.

Fonts

Using your illustration program, convert all text “to curves” or “create outlines” in your files. Never use the stylization palette to bold, italicize, add drop shadow to or put outlines on your fonts. If you are using fonts not owned by Navitor®, outlines must be created in illustration program before submitting your artwork.

Color Requirements

Navitor® now has a new “Accurate Color” system. To our channel partners, you can now send your files colored in intended PMS color versus having to color it CMYK. Every effort will be made to print your intended color within acceptable standards.

Spot Color Printing

1. Please submit black and white bitmap images at 600 dpi and grayscale images at 300 dpi for standard spot printing.

Full-Color Process Printing

1. Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.).
2. If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.
3. Pantone® color - While we are often able to closely reproduce a spot PMS® ink using full-color process, PMS® spot colors and process colors are produced using different methods. Therefore, colors produced in full-color will differ from Pantone® spot color, sometimes significantly. Please refer to a Solid to Process Color Imaging Guide for color conversions.

Proofs

Black and white proofs are available for \$15.00 (R) each. Add 2 days to production time.

Special Services

If your files require special attention to change or correct, and we are able to make the necessary changes with a quick fix, we will do so for a \$15.00 NET charge. Anything more involved than a quick fix will require additional charges. You will not be contacted unless the charge to fix your file exceeds \$15.00 NET.

Submitting Your Files

1. Once your files have been set up according to these guidelines, give them to your business partner to submit to Navitor®.
2. We can accept your files on 100MB Zip disks, on CD-Rs or online at navitor.com.
3. DO NOT send us the only copy of your file. The disk or file could possibly be lost or damaged going through the mail. A copy of the original is preferred.

Please visit navitor.com for further information on submitting files.
