

ENHANCED FINISHES

PRESS PROOF

To proof Enhanced Finishes designs, a single product proof of an announcement, business card, or postcard can be ordered for a small fee, with an additional fee for proofs with updated artwork. These proofs can be placed as a manual order or online order. Proofs cannot be ordered alongside any other products. They will ship at no charge via UPS or FedEx 2nd day air.

Online Proofs

To place an order for a single-quantity proof on Navitor.com, select your Enhanced Finishes Product, check the box that a proof is wanted, upload your artwork and place the order.

To adjust the file and order a new proof, go to the My Account page, click on Reorders and select your order via order confirmation, PO number or customer information. Once you have located the order, click on Start Reorder, click Edit next to the Front Artwork to upload the new artwork and order a single-quantity proof of this new version.

To place the final order online, go to the My Account, click on Reorders and reorder the order that contained the correct file, select Edit next to Product Specifications, and update the quantity.

Manual Catalog Proofs

Placing a manual order is just as simple as placing an online order. Simply place an order for a quantity of one.

As with online proofs, once you have examined the proof you can contact us to order a higher quantity of the proofed item or adjust your file and proof it again for another fee. If you would like more guidance when creating your artwork, contact your customer service team to learn more.
